ARTGYM™

Do you want to be involved in an exciting project that will explore the relationship we all have with Kingston: past, present and future?

Using the creative arts and media, residents of Kingston-Upon-Thames are invited to remember the past, explore the present and imagine the future. This project will explore two different generations' relationship with their environment through the exchange of experiences, stories, ideas and learning between 300 people across two generations: young residents between the ages of 19-25 and older residents over 55 years.

What is the project?

Artgym, in partnership with Transition Town Kingston, is launching this exciting intergenerational learning project, funded by the Learning Revolution Fund.

Working alongside artists, film-makers and creative facilitators, all the ideas, actions and outcomes that participants create together - including a documentary film – will be used to broadcast a community's vision for innovative and sustainable urban living.
